Pedors® Stretch Orthopedic Shoes

Practical Solutions For The Hard To Fit Foot

Volume 19

Stephen O'Hare
President, Pedors Shoes

It has been a little over 20 years since my brother and I took a chance and drove from Atlanta to San Antonio to attend the Pedorthic Footwear Annual Symposium. We were presenting a concept for stretchable orthopedic shoes and hoped our ideas would be well received.

Fortunately, the PFA community could not have been more welcoming. We met a bunch of really cool Pedorthists who were generous enough to share with us their front line experience and they encouraged us to go into production. The rest as they say is history and the Pedors shoe brand was launched. We tagged ourselves "the Pedorthic Shoe Company" - a company that relied on and listened to the advice and input from the **PED**orthists and **OR**thotist**S** we work with.

With that in mind we want to help you to increase your referral business by inviting you to join our Pedors Authorized Dealer (PAD) program.

PAD offers:

- Free Pedors branded slat wall header and shoe shelves
- Free customized marketing materials to develop and grow physician referrals
- Free Authorized Dealer designation on Pedors.com store directory
- A link to your website contact page with location details and store hours

PAD accounts benefit from discounted pricing set to 10% off wholesale.

Program Requirements

Each PAD agrees to display the 4 core Pedors products in store:

Classic | Classic MAX | Mary Jane | Stretch Walker

The PAD agrees to carry a small sizing inventory in each line, and to provide an image of their in-store display to be used on the Pedors.com website store directory.

If you are interested please call me directly on **770 218 8282** or email **stephenohare@pedors247.com** to get your account set up as a PAD.

Wishing you all the best, *Stephen O'Hare.*
